At present, we can enact a law on any subject not repugsent to the laws of the Imperial Parliament. After Confederation shell have reken place, our Legislative powers will be greatly changed, and much that may now be done here will have to be done at Ottawa. In view, then, of the coming change, it is desirable for all to familiation themselves with the powers that the Ottoba Government will hold and exercise, and with the very limited power that will remain to the local government. After Union, Trade and Commerce will cease to be under our control, but will be regalated from Ottawa; eo will the kindred subjects of Currency and Coinage, Weights and Measures, Bills of Exchange and Promissory Notes, Bankruptey and Insolvency, Banks and the issue of Paper Money, Interest, and Legal Tenders of coin or notes. Besides which we shall have no power to make any regulation respecting navigation and shipping. The local government will have power to incorporate companies that are confined to undertakings connected with the Colony; but it may be ques-tioned whether they will have power to incorporate a company to do business abroad. At best, there is a doubt as to the extens of our power with respect to and Capyright Laws will be made by the Federal Government. Marriage and Divorce Laws will be beyond our reach; but we shall be able to say something about how marriage shall be solemnized. A very nice difference. The Indians will come under the control of the Federal Government, and so will the fisheries on our lakes, rivers, and coast. Our Postal affairs, Customs, excise, militis, light-houses and buoys, the Criminal Law and Courts, steamship and railway lines, will all be attended to in the Ottawa Congress. The powers of the local Government will be those of a kind of Superior Municipality. We shall manage the public lands, invite immigration, and keep roads, and impose licenses on shopkeepers, &c. Beyond that, we may alter the constitution of the Colony and of the Courts of Law, if the Ottawa Cabinet will assent to the Acts that we may send them. We will also have the power to make terms about property and civil rights; but where our power will begin to determine under "The North America Act, 1867." All kinds of local things, for the Colony only, may be managed by our Legislature. The line of separation between the powers of the local and Federal Governments is very indistinct for a long time, a special Court to deter-mine what laws enseted by the Dominion Parliament or local Legislature shall be constitutional or not. In time, the whole matter will systematize itself; but we must say that the division of the powers between the Federal and State Governments of the United States appear to be much more clear and better defined than the division of the powers between the

DR. CHING FUN-A CARD-EDITOR
STANDARD:—Through the medium of your
paper I want to state the very great good that has been
done me by Dr. Ching Fun of this city, niet door Kwong
Les Co. For 24 years I suffered with neuralgia on
the brain, which bailed the skull of three first-class
American physicians. Latterly bronehitis attacked my
right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months
treatment I sin a well man and feel that I cannot sound
the eminent Chinese gentleman's praises too loudily, ethat all my countrymen similarly affected may visit him
